I would like to extend this note of appreciation for your continued effort in supplying our Hospital with a quality service. We are extremely satisfied with DCM performance, quality, promptness and professionalism.

Our experiences have always been pleasant and quite effortless. In times of quickly developing technology, we know that we get the services we need.

To summarize, "the work was what I was hoping for and was professionally done. I would not hesitate to do work with your company in the future and or recommending you to other health care facilities."

Tony Humphries

Director, Building Services
