Attn Julie Mitchell
General Manager

Dear Julie:

Thank you for your follow up letter. I am glad you updated me on the change in your company name. It sounds like the new owners treat you, and the rest of the staff from the old Vectorsoft company, as well as you treated me during our project last summer. The new company with the expanded services can only improve on the quality products you can do for your clients.

Keeping the staff and all methodologies in the processes of completing work for your clients, shows that they know not to mess with a good thing. I wish you and the rest of Document Conversion Management Inc. continued success. I will be sure to mention your services to anyone I know of who is looking for quality, professional work.

Regards,

Phil Borgel P.Eng
Supervising Engineer
Yukon Electrical Co. Ltd and Northland Utilities Enterprises.
